Only those trees approved by a forester may be cut, and the following STANDARD CONDITIONS shall be met during tree removal operations:

- Permit must be signed by owner or authorized agent to be valid.
- Permit must be on site during work.
- Tops of live pine and fir stumps shall be covered with powdered borax immediately after felling to retard the spread of root disease.
- Green wood shall be covered and sealed with 6 mil clear plastic, or split and scattered in a sunny spot until dry.
- Soil conditions must be dry before vehicles are allowed off pavement.
- Slash shall be burned, chipped or removed within 15 days (burn permit obtained from Fire Department).
- A grading permit may be required for activities that result in greater than 3 cubic yards of soil disturbance.

Date permit issued: 12/4/14 Permit is void after: 12/4/17

SPECIAL CONDITIONS / NOTES / SITE DRAWING: "North Tahoe Fire Hazardous Fuels Reduction and Defensible Space Project."

This project meets the criteria of MOU between T.R.P.A. and C.T.C. The intention of which is: fire prevention, vegetation management on Urban lots.

The Permittee, for himself, his contractors, and employees, agrees to save, indemnify, and hold harmless TRPA or its representative from all liabilities and claims for damages by reason of injury or death to any person or persons, or damage to property from any cause whatsoever while in, upon, or in any way connected with the work covered by this tree cutting permit, and does further agree to defend TRPA in any claim arising out of or as a result of the work done under this permit.

I hereby acknowledge that I have read this permit and state that the above is correct and agree to comply with all ordinances and state laws, and regulations of the Department of Industrial Relations and Industrial Accident Commission, relating to the character of work, equipment, and labor personnel involved in this project. I also certify that trees being removed are on the property as described above.

Any Development Projects at This Parcel?
☒ None
☐ Plans Not Submitted
☐ Plans Under Review
☐ Active Construction Permit

If so, what Type?
☐ New
☐ Rebuild
☐ Addition
☐ Grading
☐ Paving

Reviewing Agency: ☒ TRPA
☐ County
☐ City

Getting Started

☒ **Prepare a description and reasons for tree removal.** You may request that all trees be evaluated on a parcel if property boundaries are clearly described **and/or** property corners are staked or flagged. You may also describe specific tree(s) to be evaluated: for example, "cedar tree in front deck with red ribbon," or "fir tree with dead top near the right rear corner of house." Trees are approved for removal based on guidelines described in Chapter 61.1.6 of the TRPA Code of Ordinances.

☒ **TRPA cannot permit tree removal on parcels other than your own.** Trees near poorly-defined property boundaries may not be evaluated. Trees located on the property line require written consent from both property owners before the tree can be approved. Include a letter from the adjacent owner or a note of consent with this application granting permission to TRPA to evaluate the property line tree for removal.

☒ **Attach a copy of site plans** if there is an active construction project or plans under review on the parcel.

☒ **Obtain necessary permits from other agencies.** Review or permit may also be required from the California Department of Forestry (CDF) if in California or Nevada Division of Forestry (NDF) if in Nevada, or Lahontan Water Quality Control Board prior to removal of any trees. Contact the appropriate agency for additional information.

☒ **Include fee with application:** Payment of nonrefundable filing fee required at time of application. The filing fee applies to the first hour spent reviewing the project. An additional fee will apply for each additional half hour spent reviewing the project. Check, cash and money orders only. Make checks payable to TRPA or Tahoe Regional Planning Agency.
